

**RECYCLING AND TRASH IS
A COMMUNITY EFFORT!**

Borough of **MATAWAN**
NEW JERSEY
**RECYCLING
& TRASH CALENDAR**
MARCH 2025
THROUGH FEBRUARY 2026

Recycling Coordinator Grace Rainforth, CRP, SRMP, CCCC
732-566-3898 ext. 132 • recycling@matawanborough.com

FOR MISSED TRASH PICKUPS, Please contact RTS @ 1-833-787-4636 or email jkramer@rts.com

Recycling Coordinator Grace Rainforth, CRP, SRMP, CCCC · 732-566-3898 ext. 132 · recycling@matawanborough.com

ALL RESIDENTS – Recycling Pickup is every Thursday – Trash Pickup is every Monday
See calendar for schedule of recyclables collected each week.

Matawan Recycling Center - 62 Main Street, Matawan, NJ

In order to access the recycling center, please contact the Recycling Coordinator at 732-566-3898 x600 to schedule an appointment to obtain an access card. You will need to provide a copy of the registration on the vehicle you will use to access the center and please provide driver's license and proof of residency (tax bill).

NO TRASH OR CONSTRUCTION DEBRIS, OF ANY KIND

To obtain an access card – (please schedule appointment)

Matawan Municipal Building
201 Broad Street (window 1)
Matawan, NJ 07747

**Each residence will receive one initial
access card (no fee).**

Hours of Operation:

Monday through Friday
7:00 a.m. - 7:00 p.m.

Saturday & Sunday
9:00 a.m. - 3:00 p.m.

You will need:

- proof of residency - (driver's license with current address) or property tax bill
- vehicle plate numbers and registration for each (up to four at the same address)

Items allowed:

- commingled - bottles (glass & plastic) cans (**no paint cans**)
- cardboard (corrugated) must be broken down or flattened
(SHREDDED PAPER GOES IN TRASH)
- newspaper, mixed paper
- brush - branches 3 inches in diameter **OR LESS ONLY**

- yard debris - **NO WOOD, grass, mulch, wood chips, soil or stones. No concrete / bricks**
- absolutely no plastic bags - please take them back with you if using for transportation to facility.
- metals - aluminum, steel - (**no paint cans of any kind**)
- **NO PROPANE TANKS ALLOWED**

Electronics allowed:

- portable / laptop computers (remove all identifiable labels if possible)
- fax machines
- main frames stereos & radio equipment
- televisions
- humidifiers
- monitors
- cable attachments
- e-book readers
- UPS/battery backup (**no car, boat or motorcycle batteries**)
- scanners
- wire
- speakers
- microwaves
- dehumidifiers
- cell phones & telephones
- MP3 players
- printers
- keyboards & mice
- telecommunications
- VCR / DVD players
- space heaters
- servers
- copiers
- cameras
- modems

Please register for the Borough's Emergency Notification System, SWIFT911 and Nixle

to sign up for E-Alerts to register for Municipal E-Alerts

**MUST PLACE TRASH / RECYCLING
ON CURB THE NIGHT BEFORE.**

PLEASE DO NOT PUT TRASH OUT ON RECYCLING DAY.

TRASH CAN INCLUDE (2) BULK ITEMS – BULK ITEMS ARE:
FURNITURE, MATTRESSES, AREA RUGS, AND PERMITTED
HOUSEHOLD GOODS (**EACH PIECE COUNTS AS ONE**)

MUST PUT RECYCLING DIRECTLY IN CLEARLY
IDENTIFIABLE RECYCLING CONTAINER –

**NO PLASTIC BAGS
NO STYROFOAM**

FOR METAL APPLIANCE PICKUP

**INCLUDING WASHERS, DRYERS, STOVES, GRILLS,
MICROWAVES, REFRIGERATORS AC UNITS, PLEASE
CONTACT THE RECYCLING COORDINATOR GRACE
RAINFORTH, CRP, SRMP, CCCC
732-566-3898 EXT. 132**

Paper / Newspaper / Cardboard

Such as cardboard shipping boxes
(*waffle section between layers*), flattened;
Mixed Paper including: chipboard
(*cereal boxes*), white/color paper, junk mail,
magazines, softcover books, wrapping
paper/non-metallic and Newspapers
including inserts are all accepted.

- **DO NOT INCLUDE:** grease/food stained cardboard (pizza boxes) or waxed cardboard.
- **DO NOT INCLUDE:** food wrappers, paper plates and cups, napkins, paper towels or items from food/hygiene use.
- **DO NOT INCLUDE:** shredded paper, newspaper used for pet waste or household projects.

Please be courteous to neighbors and use a tight fitting lid on both recycling and trash containers and secure any items outside of cans.

Commingled

Glass Bottles & Jars

Food and beverage bottles and jars are acceptable.

- **DO NOT INCLUDE:** ceramics, dishes, glassware, lightbulbs, windows
- **DO NOT INCLUDE:** caps or lids

Metal Cans

Aluminum cans, Tin cans and Bi-metal cans (*tin cans with aluminum lids*) are all accepted. Please rinse.

Non-hazardous aerosol cans are also accepted.

Empty.

- **DO NOT INCLUDE:** aluminum foil, plates, trays or cookware or any metal scrap
- **LABELS ARE OK**

PLASTIC CONTAINERS

Sorting plastic helps produce high-quality recycled products.

Manufacturers print a standard

code (#1-7) on the bottom of every container. ONLY recycle Types #1 and 2 with a 'pourable' neck smaller than the body. No. 1 Polyethylene Terephthalate PET, PETE Soft drink, water, soda bottles or No. 2 High Density Polyethylene HDPE Detergent bottles. Also, No. 5 Polypropylene PP Bottle caps, drinking straws, yogurt cups.

- **DO NOT INCLUDE:** plastic bags, margarine tubs, diaper wipes containers, clear salad containers, food storage containers, Rubbermaid containers, trash cans

DO NOT Recycle these items: Put in Regular Trash

Drinking Glasses, Dishware, Windows, Etc

Non-recyclable glass looks different because it's made from different ingredients and has different melting point. If a ceramic mug is put into a furnace with recyclable glass bottles, for instance, it will melt more slowly causing defects in the process.

Non-Recyclable Plastic Containers, #3 - #7

Margarine Tubs, Diaper Wipes, Take-Out Plastics, Bottle Caps And Straws, Etc

No. 3 Polyvinyl Chloride PVC, V

(Example: Very hard plastic what salad bar containers are made of)

No. 4 Low Density Polyethylene LDPE

(Example: Fresh produce bags, also used in dry cleaning)

No. 6 Polystyrene (Example: Styrofoam)

No. 7 Other Ex: Polycarbonate baby bottles.

Non-Recyclable Plastic Containers #1 - #2

Plastic Tupperware, With Wrong Size Neck, Plastic Containers

Some plastic containers, even if they have #1 or #2, are made from a different process, and CANNOT be recycled at this time.

If the neck is the same size as the body, throw them in the regular trash, (along with caps, which are made from yet another, harder plastic to withstand twisting/turning).

Plastic Bags

These clog machines at the processing plants. Reuse if possible.

Aluminum Foil, Plates, Trays Or Cookware

Food Stained Pizza Boxes And Waxed Cardboard

Food Wrappers, Paper Plates And Cups, Napkins, Paper Towels

Garden Hoses, Christmas String Lights

FREE County Drop-Off Facilities

Monmouth County Reclamation Center

Attention residents dropping off materials at the Household Hazardous Waste Facility, please follow the updated procedure by staying in your vehicle, keeping the materials for disposal in the trunk of a car, SUV, wagon or van, wearing a mask when at the facility and making certain all chemicals are properly labeled for disposal.

The Monmouth County Reclamation Center residents' tent is open during regular operating hours. It is open from 7 a.m. – 3:30 p.m., Monday through Friday and on Saturdays from 7 a.m. to 12 p.m. during the winter, or from 7 a.m. to 1 p.m. during the summer.

HOLIDAY INFORMATION:

**Noon closing on Memorial Day, Fourth of July and Labor Day.
Closed Thanksgiving Day, Christmas Day, and New Year's Day.
Regular operational hours on all other holidays**

Please note that in order to preserve resident and employee safety, a few changes have been made:

- Residents must practice social distancing and wear a face covering at all times
- Please wait for and follow attendant's directions to dumping location.
- All dump tickets will be returned to the scale operator.
- All residents will be required to self-unload vehicles.
- All dump body trucks and trailers will be directed to our MPRF building for dumping.
- Please be aware of prohibited items, including recyclables, automobile/rechargeable/button type batteries, appliances, etc.

5/1/2020: The Monmouth County Reclamation Center will continue to take grass clippings. Commercial customers (including landscapers) and municipalities who dump grass clippings will be directed to the Material Recovery and Processing Facility (MRPF) building to dump this material, while residential customers will continue to dump grass clippings at the residents tent (once the COVID-19 restriction is lifted). The tipping rate for grass clippings will be \$36.50/ ton (which is unchanged) and \$3/car load for residents (which is also unchanged).

Household Hazardous Waste (HHW) Facility

3211 Shafto Road, Tinton Falls, NJ 07753

The operations of the Monmouth County Household Hazardous Waste (HHW) Facility is contracted out to Radiac Environmental Services. The hours of operation for household hazardous waste drop-off at the facility will be as follows:

Closed on Sundays, Mondays and Thursdays.

Tuesday, Wednesday, Friday: 11 a.m.-4 p.m.

Saturday: 8 a.m.-4 p.m.

IMPORTANT INFORMATION

Attention residents dropping off materials at the Household Hazardous Waste Facility, please follow the updated procedure by staying in your vehicle, keeping the materials for disposal in the trunk of a car, SUV, wagon or van, wearing a mask when at the facility and making certain

all chemicals are properly labeled for disposal.

- The Facility is open to Monmouth County residents only.
- There will be NO appointment required to drop off materials at the facility.
- The facility limits residents to 20 gallons of liquid or 220 lbs. of dry material per visit.
- Liquid containers limited to 5 gallon size maximum.
- Solid packages limited to 50lb. weight maximum.
- NO business or commercially generated waste materials accepted.
- Asbestos, ammunition, fireworks, gunpowder, boat flares, radioactive materials (smoke detectors), medical waste, and medical sharps are not permitted for disposal at the facility.
- Monmouth County reserves the right to reject participants and/or materials at its sole discretion.
- For further information, call 732-683-8686 ext. 5210 or 8967.

Acceptable Items

- Liquid paint (oil base, enamel, spray paint)
- Mercury containing devices (thermostats, thermometers)
- Gasoline (transported in a certified gas can ONLY)
- Motor oil and other automotive fluids
- Used oil filters
- All herbicides
- All pesticides
- All solvents
- Wood preservatives
- Oxygen tanks
- Fire extinguishers
- Rechargeable batteries, button batteries, car batteries
- Any household cleaners
- Stains
- Unbroken fluorescent tubes
- Fertilizers
- Kerosene
- Insecticides
- DDT
- Muriatic acid
- Freon
- Anti-Freeze
- Photographic chemicals

Items not accepted by HHW

- General household trash
- Carpeting
- Wood (Pressure treated, untreated, railroad ties)
- Grout mix
- Portland Cement
- Lime
- Latex Paint
- Asbestos waste
- Rock salt
- Any household debris
- Any furniture
- Insulation
- Grass or leaves
- Trees and shrubs
- Household batteries
- Ceramic tile
- Joint compound (Spackle)
- Refrigerators and freezers
- All electronics and computer equipment
- Tires or car parts
- CFL lightbulbs (accepted at local home improvement stores, eg. Lowes)
- Medical waste

<https://mcrnj.com>

Regular household trash is generated from Kitchen and Bathroom (Type 10) – Additionally, residents are allowed 2 (two) bulk items every Monday (Bulk items are: furniture, area rugs, mattresses and permitted household goods) each piece counts as one.

YOU MUST TAKE METAL ITEMS TO RECYCLING CENTER

Do NOT Recycle or place in trash:

- CONSTRUCTION / REMODELING DEBRIS
- ASPHALT, BRICK, CONCRETE
- TREE PARTS;
STUMPS AND LIMBS >3" THICK (Diameter)

You must drop these items off at a Private Bulk Waste Recycling Facility. See chart on this page.

Private Drop-Off Facilities

**These lists are provided for information purposes only.
The county does not endorse any company.**

Latex Based Paints

Latex paint is also known as water-based, acrylic or emulsion paint. It is comprised mostly of water and is NOT considered a hazardous waste. It can be safely discarded in household trash provided that it is solidified.

If you are unsure if your paint is latex paint, look at the clean-up instructions. Latex paint will instruct you to use "detergent and water" or "soap and water". Oil based will require you to use solvents and chemicals in the cleaning process.

Latex paint is NOT accepted at the Household Hazardous Waste Facility. Please use one of the methods below to solidify or dry your paint.

Latex Based Paint

Air Dry: Remove the lid and allow the liquid to evaporate. This works well for small quantities of paint, generally an inch or two at the bottom of the can. This can take several days for fully dry.

Use a Dry Agent: Mix an absorbent material into the paint and allow it to dry. These materials include cat litter, sawdust and plaster of Paris. Paint and hardware stores also sell "waste paint hardeners". Drying times for the paint vary depending on the type of material used and the quantities of paint and absorbent material.

Pour Thin Layers: Pour about 1 inch layers into a cardboard box with a plastic liner. Allow the paint to dry one layer at a time until all the paint has hardened. Once all of the paint has hardened, the box can be thrown out in the garbage.

Once the paint is thoroughly dry, keep the lid off and place it in your curbside garbage.

PROTECT THE ENVIRONMENT

DO NOT

dump the paint on the ground or down a storm drain where it will travel to the surface water (lake, pond, stream, etc.) or ground water.

DO NOT

pour paint down the drain in your home or business. Paint can cause damage to septic and sewer systems.

DO NOT

throw liquid paint in the garbage. It is illegal and paint can leak from the garbage truck onto Borough streets. Paint on the roadway is slippery and can cause an accident or can be washed into a storm drain, polluting a waterway.

DO NOT

put illegal or hazardous materials into the garbage or recycling as you will be responsible for the cost of cleaning up the spill or contamination.

These costs can run into the tens of thousands of dollars and in extreme cases nearing a million dollars.

Most homeowners insurance policies will not cover this.

Details

Disposing of unwanted paints and chemicals down sinks and drains can damage sewage and septic systems. Dumping them into a storm drain or on the ground can contaminate surface and groundwater, which we depend upon for drinking, bathing and recreation. Follow these guidelines for proper disposal and to reduce threats to human and wildlife health and the environment.

Reduce

Properly calculating the amount of paint required for your project will reduce the amount of leftover paint that you will need to discard. There are online paint calculators to assist you.

Reuse

Leftover paint has a shelf life of 10-15 years. Keep the paint for touch ups that might be needed in the future. To keep the paint from drying up, seal the container properly. Use a rubber mallet to tap down the lid. Store the paint in a cool, dark location like a basement or someplace that is not prone to extreme temperatures.

If you don't want to save the paint, ask a friend or neighbor if they could use the excess. The leftover paint might be perfect for a small project. It also makes for a fun activity for children to paint old scraps of wood or a cardboard box when coupled with proper supervision. Another option is the Paterson Habitat for Humanity. You can contact them at patersonhabitate.org/restore

Oil Based Paints

Oil based paints are considered a household hazardous waste and should be disposed of through the County Household Hazardous Waste Facility. They are ignitable and their fumes are potentially harmful. The Facility is open Tuesday, Wednesday & Friday 11 a.m. - 4 p.m. and Saturday 8 a.m. - 4 p.m.

For further information, please contact 732-683-8686 ext. 8967 or 8961

March 2025

CURB PICK UP

Branches, leaves and yard debris are picked up by the Department of Public Works on the first Tuesday of every month, March thru October.

Yard Debris: Clippings, very small pieces of branches, leaves – placed in biodegradable paper bags.

Branches: Less than 3 inches in diameter bundled in four foot sections

No plastic garbage bags – nothing placed in trash/recycling cans. No stones or rocks. No stumps. No grass.

If you put unauthorized items in trash/recycling or yard debris curbside items for pick-up, they will not be picked-up and you will receive a notice like the one shown at right explaining which items were incorrect.

DEAR RESIDENT, WE WERE HERE BUT YOUR....

YARD DEBRIS WAS NOT PICKED UP BECAUSE:

- ☐ BRANCHES WERE NOT TIED IN 4FT BUNDLES AND/OR WERE OVER 3" IN DIAMETER
- ☐ BUNDLES TOO HEAVY TO PICK UP OVER HEAD
- ☐ YARD DEBRIS IN ANY KIND OF CONTAINERS OR PLASTIC BAGS
- ☐ NO ROCKS, STUMPS, DIRT, MULCH, WOOD CHIPS OR GRASS
- ☐ OTHER _____

LEAVES WERE NOT PICKED UP BECAUSE:

- ☐ GRASS MIXED WITH PILE
- ☐ STICKS/BRANCHES IN PILE
- ☐ FOREIGN OBJECTS FOUND IN PILE
- ☐ OTHER _____

April 2025

MONMOUTH COUNTY PAPER SHREDDING 2025 DATES

Is it time for you to dispose of confidential documents and old files? Bring your documents to be shredded on location in the mobile truck. Don't be a target of identity theft!

All events will run from 9 a.m. - 1 p.m. unless the truck fills first.

Remove large binder clips. Staples and paper clips can remain.
Limit of 100 lbs. (which is equivalent to four office paper boxes or four large sized trash bags) of documents.

**Free service to Monmouth County residents only.
No Businesses Allowed.**

For more information, please call **732-683-8686 ext.8967**

What Happens to Your Recyclables?

New Jersey residents place many tons of recyclable materials at the curb each week, but what happens to all of the bottles, cans, paper and corrugated cardboard once it is collected and hauled away? The next stop for your mixed recyclables is a recycling processing facility that uses manual labor, screens, magnets, specialized sorting equipment including optical sorters, as well as other high-tech machinery to sort the recyclable materials into their constituent parts so that they can be marketed. The separated materials are typically baled and then sent to manufacturers who use the various recyclable material feedstocks as raw materials in the production of new products. Take a virtual tour of the Robert C. Shinn, Jr. Recycling Center in Burlington County for a firsthand look at one of these amazing facilities:
www.youtube.com/watch?v=j5fl2NQPFE0.

June 2025

Tackling the Litter Problem

What is litter? Litter is solid waste that's out of place. It's the kind of trash found on highways, lake fronts, parks and school grounds. Litter takes many forms: paper, plastics, metal cans, cigarette butts, glass, food packaging, tires and graffiti.

Where does it come from? There are five sources of litter: pedestrians, motorists, overflowing household garbage, construction sites and uncovered trucks. Litter is often blown by the wind until it is trapped somewhere, as along a fence.

Why do people litter? People tend to litter when they think someone else will clean up, when an area is already littered, and when they do not feel a sense of ownership or community pride.

Why is litter a problem? Even small amounts of litter are unsightly, unhealthy and dangerous. Litter causes blighted landscapes resulting in an increase in taxes and a decrease in tourism and industry; loss of civic pride and morale; and a negative public image. Litter can also cause disease in people and animals, fires, and accidents, especially on roadways.

IN CASE YOU WANTED TO KNOW

MONMOUTH COUNTY DISTRICT 8 (HAZLET YARD) COVERS THIS AREA. DISTRICT 8 SUPERVISOR IS: JOHN D'ALTILO 732-264-6770.

Roads covered:

Main St. from Atlantic Ave. to Rt. 516

Grass – Cut It and Leave It

Environmentally-Friendly Lawn Care

Grass clippings are a major part of New Jersey's municipal solid waste stream. As a New Jersey resident, you are already helping to avoid air pollution and wasted resources by recycling. You can do more by reducing waste at the source. Leave the grass clippings on your lawn when you mow, and let nature do the recycling.

Just cut it and leave it to save time and money

You'll save 20-25% of your time because you won't have to stop and empty your lawn mower bag, and you'll avoid purchasing yard waste bags and hauling them to the curb. You'll need to fertilize less (25-50%), since clippings return nutrients to the soil.

Mow your lawn correctly

To maintain your lawn properly, mow high and mow often, so that you only take off about 1/3 of the length of the grass. This will result in an attractive, neatly trimmed lawn, and clippings will disappear when they filter down to the soil. Most New Jersey lawns should be mowed 2 1/2 - 3 1/2 inches high (like the rough beside a golf course fairway), especially in summer, to shade the soil, cool the roots, and block weed growth. Mulching mowers help you do this; they chop the clippings into fine pieces that slip easily down to the soil. Most new mowers are mulching mowers, and you can attach mulching equipment to your existing mower.

The right amount of water

Controlling watering rates will help your lawn grow at manageable levels and still stay healthy. Don't water until the lawn is dry. If it turns blue-green or gray, or if footprints don't spring back, it's time to water.

Provide about an inch at a time for clay soil, and half an inch for sandy soil. Place a few cans around the lawn and note how long it takes for that much water to collect. Even in dry periods, lawns usually need a thorough watering only once a week, or twice if soils are sandy. If managed carefully, water will soak the soil four to six inches down, just right for building healthy root systems and greener growth. Early morning watering conserves water by preventing evaporation.

What to do with excessive growth

If you miss a week, or if heavy rain causes fast growth, you have some choices.

Double mow

Set the mower higher than usual and cut no more than the top third of the grass. In a day or two, set the mower height down and bring the lawn mower down another 1/3 of its height. Continue this process until you reach the desired height.

Mulch heavy clippings into the garden

Bag or rake the clippings and apply them to your garden as mulch. Spread them an inch deep, to cool the soil, retain water, prevent erosion and compaction, and smother weed seeds.

Mix them with the soil

New Jersey soils can be improved by adding organic matter. Added organic materials make heavy clay soils become more productive, and sandy soils retain more water.

Compost

Grass speeds up your composting, but can cause odors and deplete oxygen if not properly managed. If you compost large amounts of grass, turn the pile often with a pitchfork.

What about thatch?

Clippings don't cause thatch. Thatch is formed from the accumulation of dead roots and stems. The more you fertilize and water your lawn, the more it grows and the faster thatch accumulates.

Lawn additives

Many people apply too many lawn products, too often. It costs money and may harm the lawn. Better to evaluate problems and apply only what you need. Let your County Agriculture Extension Agents give you expert advice on care and disease treatment. You can find lawn care publication at www.rce.rutgers.edu/.

Every year in New Jersey, dozens of people poison themselves taking care of their own lawns because they don't take product label warnings seriously, and they think that more

is better. Lawn additives are powerful chemicals, and you need to use them correctly.

Fertilizer

Too much fertilizer means rapid growth and more mowing. Use soil testing to verify the need for fertilizer; see your County Extension Office for a soil test kit. Fertilize in September and again in October or November for a healthier lawn. This keeps the lawn greener through the winter and strengthens roots for thick growth in the spring without the unwanted long growth caused by spring fertilization. This means fewer mowings, less clippings, and less work. Don't fertilize in summer unless needed; too much can kill cool-season grasses such as fine fescues! Use fertilizer containing at least 50% controlled release nitrogen. The bag may say "water insoluble or WIN," "organic," or "slow release" nitrogen.

When you cut it and leave it, the nitrogen from the grass clippings will add one to two pounds of nitrogen a year to each thousand square feet of lawn. You can adjust the spreader setting to about 1/2 to 3/4 of the manufacturer's recommended setting.

Herbicides and insecticides

Herbicides remain on the grass for some time, and some make the clippings unsuitable for mulch, so it's important to cut it and leave it when you use weed killers. Too much herbicide can burn the lawn, kill nearby plants, and contaminate waterways. Instead of repeated whole-lawn application of weed killers, try a one-time pre-emergent weed killer and spot application if your lawn has only a few weeds. If you see signs of insect damage, call your extension agent to determine what you need before you select an insecticide. You may find that you don't need any at all.

You can achieve the lawn you want and also protect our environment, when you practice careful turf management, and **Cut It and Leave It!**

MONMOUTH COUNTY RECLAMATION CENTER accepts Grass Clippings and Household Chemicals

6000 Asbury Avenue, Tinton Falls, NJ • Telephone: 732-683-8686

Hours of Operation:

7 a.m. – 3:30 p.m., Monday through Friday and from 7 a.m. to 12 p.m. on Saturdays. Closed Sundays.

HOLIDAY INFORMATION:

Noon closing on Memorial Day, Fourth of July and Labor Day.

Closed Thanksgiving Day, Christmas Day, and New Year's Day.

Regular operational hours on all other holidays

GRASS CLIPPINGS ARE ACCEPTED SEPARATE FROM OTHER WASTES

\$3.00 per car or \$36.50 per ton - car or truck

Station Wagons, Minivans, and SUV-type vehicles qualify for the car rate only when all grass is behind the rear most seat.

HOUSEHOLD CHEMICALS

Residents needing to dispose of oil paints or chemicals can make an appointment to dispose these household hazardous wastes. Latex paint is not a Household Hazardous waste (dry/dispose with regular trash). Call 732-683-8686 (press 1) No charge to qualified participants.

EFFECTIVE MAY 4, 2022

NJ's Ban on Plastic Carryout Bags & Polystyrene Foam in Stores, Grocery Stores & Food Service Businesses

WHAT DO YOU NEED TO KNOW?

Starting May 4, 2022, New Jersey retail stores, grocery stores and food service businesses may not provide or sell single-use plastic carryout bags and polystyrene foam food service products. Single-use paper carryout bags are allowed to be provided or sold, except by grocery stores equal to or larger than 2500 square feet, which may only provide or sell reusable carryout bags. After November 4, 2021, plastic straws may be provided only upon the request of the customer.

WHAT IS A REUSABLE CARRYOUT BAG?

Under the law (P.L.2020 c.117), a reusable carryout bag is defined as one that:

1. is made of polypropylene fabric, PET non-woven fabric, nylon, cloth, hemp product, or other washable fabric, and
2. has stitched handles (either thread or ultrasonic), and
3. is designed and manufactured for at least 125 reuses.

WHERE CAN A BUSINESS PURCHASE PRODUCTS ALLOWED UNDER THE LAW?

Businesses may contact any distributor or manufacturer to obtain products that meet the requirements of the law. As a courtesy, the NJ Business Action Center's website will soon feature an online clearinghouse of wholesale vendors who provide environmentally-sound alternative products. Please check business.nj.gov for updates.

WHAT POLYSTYRENE FOAM FOOD SERVICE PRODUCTS ARE BANNED?

As of May 4, 2022, all polystyrene foam food service products are banned for use and sale. See below for a list of exemptions. For more information, please see nj.gov/dep/plastic-ban-law/#foam_products

WHAT RETAIL AND FOOD SERVICE ESTABLISHMENTS ARE AFFECTED BY THIS BAN?

For a list of businesses impacted and items banned please go to this link: <https://nj.gov/dep/plastic-ban-law/docs/list-of-establishments-banned-items.pdf>

EXEMPTIONS TO THE BAN

See lists of exemptions below. The Department of Environmental Protection (DEP) has the ability to determine additional exemptions pursuant to rule, regulation, or guidance. For more information, please see the DEP's website at nj.gov/dep/plastic-ban-law

WAIVERS FOR POLYSTYRENE FOAM FOOD SERVICE PRODUCTS

The DEP may, upon written application by a person or food service business, waive the provisions of the polystyrene foam food service product ban for the person or food service business for a period not to exceed one year, if:

- (1) there is no feasible and commercially available alternative for a specific polystyrene foam food service product; or
- (2) the person or food service business has less than \$500,000 in gross annual income and there is no reasonably affordable, commercially-available alternative to the polystyrene foam food service product.

For further information on obtaining a waiver, please see the DEP's website at [NJ.gov/dep/plastic-ban-law/](https://nj.gov/dep/plastic-ban-law/).

The DEP may be contacted via email: singleuseplastics@dep.nj.gov or phone: +1(609)-984-4250.

EXEMPTIONS FROM PLASTIC AND PAPER CARRYOUT BAG AND PLASTIC STRAW BANS:

- Bags used to contain or wrap uncooked meat, fish or poultry.
- Bags used to package loose items.
- Bags used to contain live animals.
- Bags used to contain food sliced or prepared to order, including soup and hot food.
- Laundry, dry cleaning or garment bags.
- Bags provided by a pharmacy to carry prescriptions.
- Newspaper bags.
- Any similar bag, as determined by the Department (DEP) pursuant to rule, regulation, or guidance.
- Packages of single-use plastic straws and those pre-packaged with items like juice boxes may still be sold in stores.

EXEMPTIONS FROM THE BAN ON POLYSTYRENE FOAM FOOD SERVICE PRODUCTS (ALL EXPIRE MAY 4, 2024):

- Disposable, long-handled polystyrene foam soda spoons when required and used for thick drinks.
- Portion cups of 2 oz. or less, if used for hot foods or foods requiring lids.
- Meat and fish trays for raw or butchered meat, including poultry, or fish that is sold from a refrigerator or similar retail appliance.
- Any food product pre-packaged by the manufacturer with a polystyrene foam food service product.
- Any other polystyrene foam food service product as determined necessary by the DEP.

DE-ICING OPERATIONS AND SNOW REMOVAL FROM ROADS

The Matawan Department of Public Works is solely responsible for de-icing operations and snow removal from Matawan roads. The department does have an adequate amount of equipment and manpower to address the most significant storms.

Our residents can help us do a better job by following these simple guidelines before, during, and after a storm:

- Please make sure all of your vehicles have been removed from borough streets before the storm. Plowing does not typically begin until there is about 4 inches of accumulated snow, but salting operations will start once the snow begins to fall.
- After the snow has stopped, the plows will open the roads curb-to-curb. **Residents should wait for the department to completely clear the streets, before clearing snow from the head of driveways, or sidewalks.**
- Make sure your children and pets are kept well away from any snow clearing operations.

Contact Information

Matawan Department of Public Works 732-290-2011

Matawan Police 732-566-1010

Borough of Matawan

Code Book

Chapter 7 – Traffic

Section 7-10 Temporary Parking Prohibition for Snow Plowing and Removal

7-10 TEMPORARY PARKING PROHIBITION FOR SNOW PLOWING AND REMOVAL.

a. Whenever snow has fallen and the accumulation is such that it covers the streets and highways of the Borough of Matawan, an emergency shall exist and no vehicles shall be parked on the following streets or highways or portions thereof listed below:

Reserved

b. The parking prohibitions listed below shall remain in effect after the snow has ceased until the streets have been plowed sufficiently and to the extent that parking will not interfere with the normal flow of traffic.

c. Any unoccupied vehicle parked or standing in violation of this section shall be deemed a nuisance and a menace to the safe and proper regulation of traffic and any Police Officer may provide for the removal of such vehicle. The owner shall pay the reasonable costs of the removal and storage which may result from such removal before regaining possession of the vehicle.

Keep Monmouth County safe with responsible battery disposal!

DO NOT THROW RECHARGEABLE BATTERIES IN THE TRASH OR RECYCLING BIN

Improper battery disposal has caused an increased number of fires in New Jersey recycling centers, waste facilities and garbage trucks, resulting in millions of dollars in damage and lives put in danger.

Be battery safety smart!
Used household batteries can and should be recycled. Manage your household batteries safely & responsibly with these easy battery disposal guidelines.

Rechargeable (can be recharged multiple times)	Single-Use: Lithium, Button Cell (cannot be recharged)	Single-Use: Alkaline (cannot be recharged, Non-hazardous waste)
Name on Battery: <ul style="list-style-type: none"> Nickel Cadmium (Ni-Cd) Nickel Metal Hydride (Ni-MH) Lithium (Li-Ion) Small Sealed Lead Acid (SSLA/Pb) 	Name on Battery: <ul style="list-style-type: none"> Lithium 	Name on Battery: <ul style="list-style-type: none"> Alkaline Zinc-carbon Zinc-chloride (Heavy Duty)
Proper disposal: <ul style="list-style-type: none"> Recycle with Call2Recycle (call2recycle.org/locator, only batteries weighing less than 11 lbs each) Take to your local household hazardous waste center. 	Proper disposal: <ul style="list-style-type: none"> Take to your local household hazardous waste center. 	Proper disposal: <ul style="list-style-type: none"> Because alkaline batteries no longer contain Mercury, they can be disposed of with your household trash.

! Bag each battery or tape each battery's terminals prior to storing or bringing to a collection site.

Call the Monmouth County Reclamation Center at 732-683-8686 Ext. 7539 or 8967
The Monmouth County Board of County Commissioners
 Commissioner Director Thomas A. Arnone, Commissioner Deputy Director Ross F. Liotta,
 Commissioner Susan M. Kiley, Commissioner Dominick "Nick" DiRocco and Commissioner Erik Anderson

2025 Shade Tree Commission

In accordance with Borough Code Chapter 24 - Protection of Trees, Section 24-5, a permit is required before removing any trees in the Borough.

For further information regarding tree permits call 732-566-3898 x 602

CHRISTMAS TREE PICKUP – place on curb January thru February – after February, place to curb FIRST Tuesday of Month with Yard Waste Pickup.

January 2026

Composting IS Recycling

Composting is when you separate out your kitchen vegetables and yard waste at home, and place it into a special pile so that it that breaks down into a natural, soil-like product that can be used as fertilizer.

ABOVE; LEFT and RIGHT: Two styles of composting bins.

STEP 1: Choose the Right Materials

- Vegetable & Fruit Scraps
- Tea Bags
- Coffee Grounds & Filters
- Egg shells
- Peanut and Nut Shells
- Sawdust
- Dust/Lint
- Nail Clippings
- Human Hair
- Hay/Straw
- Feathers
- Paper
- Weeds *
- Fabrics (cotton, silk)
- Bark
- Wood Ashes
- Corn Cobs
- Horse/Chicken/Cow Manure
- Leaves (save in fall for spring!)
- Garden Clippings
- Stalks and Stems
- Vines
- Grass

*No aggressive weeds or weeds gone to seed

Do NOT Compost: Meat/Poultry/Fish • Fats/Oils • Bones • Dairy Products • Plastics or Synthetic Fibers • Pet Waste (meat eating pets) **IN GENERAL, NO ANIMAL PRODUCTS OR DAIRY**

STEP 2: Select & Prepare a Site -

Choose a place in your yard that is convenient (sunny or shady will do) and fashion some type of area or enclosure for your pile

- Assemble wooden stakes and/or chicken wire into a simple round enclosure.
- Construct a wooden compost bin (use old lumber, if you have any)
- Build a 3-sided enclosure with cinder blocks. Leave the front open.
- Purchase a ready-made bin from a home center or garden supplier.
- Or you can opt for no enclosure; just pile the materials up, keeping them in a fairly dense heap.

STEP 3: Add Your Compost Materials

- Layer dry (leaves), and moist (grass, kitchen scraps) in a 1:1 ratio.
- Add enough water to keep the compost heap moist, but not soggy.
- Provide adequate ventilation. To increase air circulation, turn the compost with a pitchfork at least once a month (helpful but not absolutely necessary). You can also push rods or poles through the heap and then remove them, leaving channels through which air can pass, or insert hollow, perforated poles.
- As the compost materials decompose, they create heat. This is natural, and when the pile is turned, you will be able to feel the heat.
- If your compost pile is properly prepared, contains no animal fats and is turned regularly, it will not attract pests or create odors.

CHRISTMAS TREE PICKUP – place on curb January thru February – after February, place to curb FIRST Tuesday of Month with Yard Waste Pickup.

February 2026

CURB PICK UP

Branches, leaves and yard debris are picked up by the Department of Public Works on the first Tuesday of every month, March thru October.

Yard Debris: Clippings, very small pieces of branches, leaves – placed in biodegradable paper bags.

Branches: Less than 3 inches in diameter bundled in four foot sections

No plastic garbage bags – nothing placed in trash/recycling cans. No stones or rocks. No stumps. No grass.

If you put unauthorized items in trash/recycling or yard debris curbside items for pick-up, they will not be picked-up and you will receive a notice like the one shown at right explaining which items were incorrect.

DEAR RESIDENT,
WE WERE HERE BUT YOUR....

YARD DEBRIS WAS NOT PICKED UP
BECAUSE:

- ☐ BRANCHES WERE NOT TIED IN 4FT BUNDLES AND/OR WERE OVER 3" IN DIAMETER
- ☐ BUNDLES TOO HEAVY TO PICK UP OVER HEAD
- ☐ YARD DEBRIS IN ANY KIND OF CONTAINERS OR PLASTIC BAGS
- ☐ NO ROCKS, STUMPS, DIRT, MULCH, WOOD CHIPS OR GRASS
- ☐ OTHER _____

LEAVES WERE NOT PICKED UP BECAUSE:

- ☐ GRASS MIXED WITH PILE
- ☐ STICKS/BRANCHES IN PILE
- ☐ FOREIGN OBJECTS FOUND IN PILE
- ☐ OTHER _____

CHRISTMAS TREE PICKUP – place on curb January thru February – after February, place to curb **FIRST** Tuesday of Month with Yard Waste Pickup.

Is your dog green?

Copyright 2005 © copyright-free-pictures.org.uk. Used with permission

Storm drains can be found on streets throughout the town. They collect rain water and prevent flooding when it rains. These drains empty directly into the nearest water body, usually a stream or river, **without treatment of the water**. This means that dog waste and other pollutants left on a lawn, on the street, or placed in storm drains, will get washed into our rivers and watersheds when rain falls. Our rivers and streams are areas of recreational swimming, boating and fishing and contribute to our drinking water sources.

Let's remove dog waste from the water pollution equation! Scooping your pooch's poop isn't just a courtesy, it's the law. Borough of Matawan Code Book, Chapter 5, Section 5-6e.

Just one dog? A day's waste from one large dog can contain 7.8 million fecal coliform bacteria.

Here's how to remove dog waste from the water pollution equation:

BRING IT—Always bring a plastic bag when you walk your dog. So that you're never without, carry grocery or newspaper bags in your purse, pocket or car.

BAG IT—Use the bag as a glove to pick up pet waste. Scoop up the waste and turn the bag inside out around the waste.

DISPOSE IT!—Properly dispose of pet waste by placing it in a trash can or flushing it, unbagged, down the toilet.

Rain washes pollutants into storm drains and directly into our lakes, rivers, and the ocean

Why is dog waste a problem? **Scientific evidence has shown dog waste to be a significant source of water pollution because it contains a high concentration of nutrients as well as bacteria and disease-causing microorganisms.**

Your Health—Leaving pet waste on the ground may pose a risk to children and adults who can be exposed to various diseases spread by feces.

Your Water—Pet waste carries disease causing organisms such as giardia and salmonella, which can make water unsafe for drinking or swimming.

Your Community—Swimming beaches and boating areas can be shut down due to bacterial contamination, of which pet waste can be the source.

WHAT IS STORM WATER POLLUTION?

Water from rain and melting snow that flows over lawns, parking lots and streets is known as storm water runoff. This water, which travels along gutters, into catch basins and through storm drain pipes and ditches, usually is not treated, but then flows or is discharged into local water bodies. Along the way, the storm water picks up trash (fast-food wrappers, cigarette butts, styrofoam cups, etc.) and toxins and other pollutants (gas, motor oil, antifreeze, fertilizers, pesticides and pet droppings). This polluted storm water can kill fish and other wildlife, destroy wildlife habitat, contaminate drinking water sources and force the closing of beaches because of health threats to swimmers.

Human activity is largely responsible for the storm water pollution. Everything that we put on the ground or into the storm drain can end up in our water. Each of us has a responsibility to make sure these contaminants stay out of our water. Whether we have clean water is up to you.

In Memory of Loretta

We honor the memory of Loretta Ruesch, a dedicated recycler and cherished member of our community, who passed away earlier this year. In her late 80s, Loretta's commitment to recycling was unparalleled. I had the privilege of meeting her when she sought advice on her recycling methods. To my amazement, every recycling day, she would place a 30-pound metal container on a cart and pull it about 30 feet to the street, a testament to her determination.

During Matawan Day, I entered Loretta's name in a raffle for a new recycling bin with wheels. The stars aligned, and her name was drawn. I personally delivered the bin to her, and she was delightfully surprised. However, she soon faced a new challenge as the new can would blow over from the wind created by passing cars. Even into her 90s, Loretta relied on the help of a neighbor but continued to encourage everyone to take their recyclables home.

Though she is no longer with us, Loretta's spirit and enthusiasm for recycling continue to inspire us. Let her story remind us that while it might sometimes feel cumbersome to separate our recyclables and bring them to the curb, it's a small effort compared to the great difference it makes.

Thank you, Loretta, for showing us the way. And thank you all for continuing to recycle!

We thank the residents and businesses for making our recycling program successful!

**Special thanks to Matawan's Dept of Public Works and the Recreation Department
for all their support of the recycling and clean communities programs.**
