Mr. Keady stated he has had a few meetings with NJNG who is proposing, in the recently paved areas, to install the gas main and then mill and repave for the length of that area. In the areas of that have not been paved they will simply do the required trench repair. What they did offer was to extend the paving from Woodland Avenue to the next block or in an equivalent amount. This will provide Schenck Avenue with new surfacing in an area which was not included in the 2011 Road Program. A street opening permit will be issued with identified terms and conditions, and require NJNG to post a two year bond to ensure the work performed. They are looking to proceed as soon as possible with work estimated to be completed within approximately two weeks. Council expressed concern over residents who have just went through repaving and now will be asked to do so again and NJNG lack of coordination of road openings with municipalities. Mr. Keady replied NJNG has a new representative for municipalities who is hoping to bridge that gap. Mayor Buccellato states if NJNG is extending 300 feet beyond Schenck does Council want to consider replacing curbing and aprons. Council agreed. Messrs. - 15.1 Lessor may assign this Lease Agreement upon written notice to Lessee and said assignee will be responsible to Lessee for the performance of all the terms and conditions of this Lease.
- 15.2 Lessor agrees that, after completion of the Tower, Lessee may assign all rights, benefits, duties and obligations under this Lease Agreement by giving the Lessor written notice, subject to the consent of the Lessor, which consent shall not be unreasonably withheld. In addition, the Lessee, prior to the assignment of the lease, shall pay the Lessor five thousand dollars and 00/100 (\$5,000.00) to cover the Lessor's costs with respect to review and also the approvals to be granted on the assignment. If such assignment is consented to and made, Lessee shall be relieved of all future liabilities hereunder and Lessor shall look solely to such assignee for the performance of this Lease Agreement after assignment. However, Lessee may assign all of its rights, benefits, duties and obligations under this Lease Agreement to any entity which acquires fifty (50%) percent or more of Lessee's assets, without Lessor approval. In that case, Lessee shall not be relieved for the performance of this Lease Agreement.
- 15.3 Lessee shall have the right to grant Sub-Lease Agreements to co-locator(s) to use the Tower and ground at the Rented Premises, and to use and enjoy the rights and easements herein granted to Lessee, upon Lessor's receipt of and award to co-locator(s) of a successful bid, and provided that such Sub-Leases do not interfere with Lessor's use of the Tower.

Further studies will be required should any federal or state regulations revise Radio Frequency ("RF") exposure limits. Lessee shall then meet the new standard within the time frame for compliance. A new site specific study will be completed and provided to the Lessor. At all times Lessee or its agents/representatives shall operate within the guidelines of all federal or state regulations. Lessee's Failure to adhere to all Federal Radio Frequency exposure limits shall give the Lessor the right to terminate this Lease Agreement, if Lessee does not cure same within ten (10) days of receipt of notice of non-compliance.
- 16. MEMORANDUM OF LEASE Upon request, the Lessor agrees to execute a Memorandum of Lease in recordable form which the Lessor or Lessee may record with the Clerk of Monmouth County.

HOLD HARMLESS Licensee agrees to indemnify, defend and hold the Borough, its elected officials, agents, employees, officials, Borough Engineer, Borough attorney, etc. harmless from and against any and all injury, loss, damage or liability (or any claims in respect of the foregoing) cost or expenses, including reasonable attorneys fees) arising from any act or omission of Licensee or its employees, agents or independent contractors, or the willful misconduct of any thereof, or the breach of this Lease Agreement,' except to the extent attributable to the negligent or intentional act of the Borough, its agents or independent contractors. Lessor and Lessee agree that each will be responsible for compliance with any and all environmental and industrial hygiene laws, including any regulations, guidelines, standards, or policies of any governmental authorities regulating or imposing standards of liability or standards of conduct with regard to any environmental or industrial hygiene condition or other matters as may now or at any time hereafter be in effect, that are now or were related to that party's activity conducted in or on the Premises.
- B. Lessor and Lessee agree to hold harmless and indemnify the other, and to assume all duties, responsibilities and liabilities at the sole cost and expense of the indemnifying party for, payment of penalties, sanctions, forfeitures, losses, costs or damages, and for responding to any action, notice, claim, order, summons, citation, directive, litigation, investigation or proceeding which is related to (i) the indemnifying party's failure to comply with any environmental or industrial hygiene law, including without limitation any regulations, guidelines, standards or policies of any governmental authorities regulating or imposing standards of liability or standards of conduct with regard to any environmental or industrial hygiene conditions or matters as may now or hereafter be in effect, or (ii) any environmental or industrial hygiene conditions that arise out of or are in any way related to the condition of the Premises and activities conducted by the party thereon, unless the environmental conditions are caused by the other party.
- C. The indemnifications of this Paragraph 17 specifically include reasonable costs, expenses and fees incurred in connection with any investigation of Premises or any clean-up, remediation, removal or restoration work required by any governmental authority. The provisions of this Paragraph 17 will survive the expiration or termination of this Lease Agreement. Lessor shall be responsible for, and shall promptly conduct any investigation and remediation as required by any applicable environmental laws, all spills or other releases of any Hazardous Substance not caused solely by Lessee, that have occurred or which may occur on the Property.
- D. In the event Lessee becomes aware of any hazardous materials on the Premises, or any environmental or industrial hygiene condition or matter relating to the Premises that, in Lessee's sole determination, renders the condition of the Premises unsuitable for Lessee's use, or if Lessee believes that the leasing or continued leasing of the Premises would expose Lessee to undue risks of government action, intervention or third-party liability,

Lessee will have the right, in addition to any other rights it may have at law or in equity, to terminate the Lease Agreement upon notice to Lessor.

BORO OF MA

Jean Montfort, RMC, Borough Clerk Borough of Matawan 201 Broad Street Matawan, New Jersey 07747

Re: Well Search/Vapor Intrusion Proposal Former Gasoline Underground Storage Tanks Borough of Matawan Police Department 150 Main Street Matawan, Monmouth County, New Jersey

Dear Ms. Montfort:

T&M Associates (T&M) is pleased to provide this proposal for the performance of a second and vapor intrusion investigation in accordance with New Jersey Department of Environmental Protection (NJDEP) requirements, codified as NJAC 7:26E-1.14 and 1.15, respectively.

Both of these requirements were triggered after receipt of ground water data from a June 7, 2012 ground water sampling event approved by the Borough of Matawan (Borough). The results of the ground water sampling event were made available to T&M on June 22, 2012. The scope and fees associated with this proposal are above and beyond the scope and fees associated with our previous proposal, dated November 21, 2011.

Per NJAC 7:26E-1.14, a well search is required when ground water contamination has been identified. The purpose of a well search is to provide the NJDEP with information relative to any potable, irrigation or other water drawing well within a one (1) mile radius of the above referenced site. Per NJAC 7:26E-1.14, a well search is required every two (2) years.

Per NJAC 7:26E-1.15, a vapor intrusion investigation is triggered when ground water contamination exceeds compound specific Ground Water Screening Levels, and any inhabitable structure is located within 30 feet of the monitoring well where ground water contamination was identified. Based on the results of the June 7, 2012 ground water sampling event, benzene, a gasoline related contaminants, was identified above the NJDEP Ground Water Screening Levels of 15 micrograms/liter, at concentrations ranging from 33 to 120 micrograms/liter, and two (2) buildings were identified within 30 feet of the ground water contamination.

T&M will conduct the following tasks:

Task 1: Well Search

The NJDEP mandates a well search be conducted every two (2) years for all sites with known ground water contamination. The well search requires both computer well record search and review, and door to door survey of properties within ½ mile radius of the above referenced site to confirm the presence/absence of any potable or irrigation wells.

Well Search/Vapor Intrusion Investigation

Re: Borough of Matawan Police Station

150 Main Street Matawan, Monmouth County, NJ September 19, 2012 MATN-01391 Page 2

Note: Per NJDEP regulations, the well search must be completed within 90 days of receipt of data indicating an exceedance of the NJDEP Ground Water Standards. Based on the date of receipt of data, a well search must be completed by September 22, 2012.

T&M will conduct this task for an estimated fee

\$2,000.00

Approximately \$1400 of this total is T&M labor charges and \$600 is NJDEP fees for obtaining a computer well search.

Task 2: Vapor Intrusion Investigation/Reporting

Pursuant to NJDEP Technical Requirements, the VI investigation shall be conducted on all inhabitable structures within 30 feet of ground water contamination. Based on review of available site information, two (2) buildings, the onsite Police Department and the adjacent commercial structure are within 30 feet of ground water contamination. The vapor intrusion investigation is a two (2) step process. The first step is to install Summa Canisters in the buildings and collect air samples over a 24 hour period. The second step is to drill into the sub slab of the buildings and collect sub slab samples. The NJDEP sets a minimum number of samples for indoor air and sub slab, based on the square footage of the buildings. For the Police Station building, three (3) indoor and four (4) sub slab samples are required. For the adjacent commercial property, two (2) indoor air and three (3) sub slab samples are required. Samples will be submitted to Test America, a certified New Jersey laboratory, for TO-15 analysis. Upon receipt of the data, T&M will provide an updated report of the status of the vapor intrusion investigation to the Borough, along with NJDEP required forms for signature by the Borough. Based on the results of the analysis, additional investigation may be warranted. If additional actions are warranted, T&M will notify the Borough of those requirements and timeframes.

Note: Per NJDEP regulations, the vapor intrusion investigation must be completed within 150 days of receipt of data indicating an exceedance of the NJDEP Ground Water Screening Levels. Based on the date of receipt of data, the Borough of Matawan must complete Vapor Intrusion Investigation by November 22, 2012. T&M requires 30 days advance notice for scheduling of the vapor intrusion investigation.

Please note that T&M assumes the Borough of Matawan will obtain right-of-entry to the adjacent commercial property for purposes of the vapor intrusion investigation. T&M will assist the Borough of Matawan as required.

T&M will conduct this task for an estimated fee of

\$7,500,00

Approximately \$1,500 of this total is T&M labor charges, and \$6000 is subcontractor and laboratory fees for collection of samples and analysis.

RESOLUTION 13-02-53

RESOLUTION BY THE BOROUGH OF MATAWAN OBJECTING TO THE NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION'S RECOMMENDATION TO REMOVE CERTAIN AREAS WITHIN THE BOROUGH FROM SEWER SERVICE

WHEREAS, the New Jersey Department of Environmental Protection ("NJDEP") has been in discussions with Monmouth County regarding the Proposed Amendment to the Monmouth County Water Quality Management Plan ("WOMP"); and

WHEREAS, after reviewing the draft WQMP, the NJDEP is recommending excluding certain areas within the Borough of Matawan (the "Borough") from sewer service; and

WHEREAS, maps of the areas the Borough is requesting be added the sewer service is attached hereto as <u>Schedule A</u>; and

WHEREAS, representatives of the Borough previously attended a meeting on January 22, 2009 at the Monmouth County Planning Board regarding the proposed recommendations; and

WHEREAS, the Borough previously objected to the draft Wastewater Management Plan; and

WHEREAS, based upon a careful review of the proposed recommendations the Borough of Matawan objects to the proposed restrictions on its sewer service based upon the following grounds;

- (c) The proposed plans would impact at least one of the Borough's Parks and have a negative impact on the health, safety and well-being of the residents of the Borough of Matawan, and preclude full enjoyment of the Borough's recreational facilities.
- (d) The Borough needs the ability to maintain its existing improvements or increase the capacity of existing sanitary sewer whether it is within or outside of the sanitary sewer area.

NOW THEREFORE BE IT RESOLVED by the Mayor and Council of the Borough of Matawan objects to the NJDEP's recommendations based upon the above considerations.
